

January 19, 2016

We are pleased to announce that GFL Excavating Corp., a GFL Environmental company, has acquired the Anchor Shoring Group of Companies. With a 47 year history of providing innovative engineering solutions and proactive site management, the Anchor Shoring Group will expand GFL's breadth of service, adding earth retention and foundation systems to the soil remediation, excavation and demolition capabilities of GFL's infrastructure services group, along with its solid and liquid waste management capabilities.

The Anchor Shoring name is synonymous with safety. Anchor Shoring has achieved the Certificate of Recognition (COR™) for their safety programs. They are dedicated to health and safety not just at Anchor Shoring, but across all sectors in the Province of Ontario, with Dawn Tattle serving on the Ontario Prevention Council. When GFL approached Anchor last year, it became clear from our discussions that the two companies share the core values of commitment to a strong safety culture and to quality of work. Both Anchor Shoring and GFL personnel are committed to ensuring that the highest standards of safety are maintained on our sites every day. We are both excited by the value that the combined expertise of GFL and Anchor Shoring will create for our clients from the project budget stage through construction.

As part of GFL, the Anchor Shoring Group will continue to operate under the Anchor Shoring name. All of Anchor's existing management team members are thrilled to be entering a new chapter of Anchor's history with the GFL team and will be remaining in their current roles. Derrick Speakman and Dawn Tattle will become shareholders of GFL, demonstrating their long term commitment to the GFL Anchor Shoring future. GFL and Anchor Shoring will continue to work in the same cooperative spirit with other trades that our clients may select on your projects and will continue to honour the core values of Anchor's founders, hard work, ingenuity, mutual respect and honesty, as the pillars upon which successful business relationships are built.

Anchor's email addresses and contact numbers remain the same. If you have a project you would like us to assist with or if you have any questions about this exciting news and what it will mean for you, please feel free to contact either of us or your current Anchor Shoring or GFL contact person. We look forward to an exciting future together.

Sincerely,

ANCHOR SHORING & CAISSONS LTD.

GFL Acquires the Anchor Shoring Group

Toronto, Ontario – January 18, 2016. GFL Environmental Inc. announced today that GFL Excavating Corp. has completed the acquisition of all of the shares of the Anchor Shoring Group effective January 16, 2016. The Anchor business will expand GFL's breadth of service, adding earth retention and foundation systems to the soil remediation, excavation and demolition capabilities of GFL's infrastructure services group. With the significant number of infrastructure, commercial and residential projects that have been announced for the Province of Ontario in the coming 5 years, this acquisition will strengthen GFL's ability to complete large-scale contracts in these sectors. The Anchor Group includes Anchor Shoring & Caissons Ltd., Banner Piling & Excavating Limited and Crown Drilling Limited. Known for providing innovative engineering solutions and proactive site management, the Anchor Shoring Group is a market leader in the safe design and installation of soil retention and engineered foundations, having completed over 4,500 projects in Ontario, Quebec, Eastern Canada and beyond. Some of the projects they have worked on in their more than 45 year history include the Airport Rail Link, Air Canada Centre, Metro Toronto Convention Centre, TTC York-Spadina subway extension, OPG Darlington and TTC Yonge and Leslie Stations.

Patrick Dovigi, Founder and CEO of GFL said: "The combination of Anchor with GFL creates a unique, integrated platform from which we can serve all of our clients' demolition, excavation, shoring and foundation needs. We are thrilled to welcome Dawn Tattle, Derrick Speakman and all of Anchor's employees to GFL."

Dawn Tattle, President of Anchor Shoring & Caissons Ltd., said: "Joining the GFL group is a great opportunity for all members of the Anchor team. We are excited about the added value that the combined expertise of GFL and Anchor will bring to our clients and employees."

GFL, headquartered in Vaughan, ON, is a diversified environmental services company providing a comprehensive line up of solid waste, soil remediation, and liquid waste services. Through a national platform that currently spans 8 provinces, GFL serves more than 29,000 commercial, industrial and institutional customers and more than 1,200,000 households under municipal solid waste contracts and has a workforce of more than 2,000 employees.
